## moving to lucity web

Designed for people who are responsible for developing Lucity Web Dashboards and web Views/Forms, this two-day class (with an optional third day) will combine presentation-style training with hands-on exercises.

### day one

We'll get started by diving into the Dashboard. First we'll take a look at it from an end-user's perspective. Once we determine what an end-user needs to see we'll discuss how to build them effectively. We'll address dashboards for versions prior to 2015r2 (Silverlight-based) as well as for our current version, 2015r2 (HTML-based).

Lunch will be provided.

The afternoon session will be a hands-on workshop using virtual machines that we install on your laptop. The hands-on session will focus on building dashboards for a variety of users. We will also be going over some filtering tricks to help with setting up QA dashboards.

**cost:** \$950 per person

**location:** Lucity Headquarters  
10561 Barkley, Suite 100  
Overland Park, KS 66212

**system requirements:** Windows 7  
8 GBs of RAM  
80 GBs of free disk space

### day two

On day two we'll start by covering the Views and Forms tools within Lucity web. We'll once again begin with our focus on the end-user experience. We'll then transition to how a user can effectively build views, grids and forms.

Lunch will be provided.

Once again, the afternoon session will be hands-on. We will train you to build views, grids and forms, taking into account all the various end-users who may need these forms.

### {bonus} day three

Now that we've given you all the tools to get started with Lucity Web we want to make sure you get a jump start on implementing it. **If you are able to remotely connect to your system from Lucity's offices, we encourage you to stay a third day and work on building dashboards, views, grids or forms with a Lucity trainer on-hand to help you.** While there won't be any formal training, you'll have complete access to the Lucity team, and you'll also have fellow class attendees to bounce ideas off of. What a fantastic way to cement what you've learned and get started moving your agency forward immediately following the training.

Lunch will be provided.

### training dates:

January 26th - 28th, 2016

April 19th - 21st, 2016

June 7th - 9th, 2016
